S. No.	Capacity (L)	Extra Capacity (L)	Dimensions	Height x Width
01	400 Litre	460 Litre	1015mm x 762mm	
02	500 Litre	580 Litre	1055mm x 838mm	
03	600 Litre	670 Litre	1100mm x 890mm	
04	800 Litre	940 Litre	1265mm x 980mm	
05	1000 Litre	1135 Litre	1310mm x 1055mm	
06	1200 Litre	1405 Litre	1420mm x 1125mm	
07	1600 Litre	1750 Litre	1470mm x 1235mm	
08	2000 Litre	2370 Litre	1640mm x 1360mm	

Monocoque body

Light weight, well-balanced body supports stability. At MP Industries (Pvt.) Ltd. we maintain highest standards with advanced solid Monocoque structure, In our product that make sure there is no compromise when it comes to your Sweet Home.

More Strong

Advanced solid Monocoque structure with bolder ribs support stability and reduce bulging when the tank is full

Supreme Airtight Threaded Lid

- Airtight screwable lid
- Keeps water fresh
- Keeps dirt and flies out
- Does not blow in windy days.

Plumber friendly

Multi outlet option along with inlet and overflow configurations helps plumbers in easy connection

Keeps water fresh

Pure food grade material and five layers of high quality material ensures that water remain fresh & safe.

Bolder ribs

MP Industries (Pvt.) Ltd. Water Tanks score big, both in look and strength, Unique design of bolder ribs gives extra strength, muscular styling, a strong lower body that looks apart, striking new threaded lid makes it a masterpiece.

Hygienic

Food Grade HDPE material ensures that the water does not get contaminated when in contact with the walls of tank.

Uniform Wall

The latest evolution of blow mould technology goes a step ahead of its predecessors. It re-examines the frame structure with consistent wall thickness and thereby allows even more effective balanced weight of whole tank

Blow Moulded
5 Ply
Advanced Technology

1

- Brilliant White Color
- For Beautiful outer look
- Reflect 30% ultraviolet Rays
- Reduce Temp 30% to keep water cool
- 100% food grade material and colours

2

- Beauty of blue
- Blue define the 2nd layer
- Blue color heat stability parameters are high so it makes protects plastic sheet from crack.

3

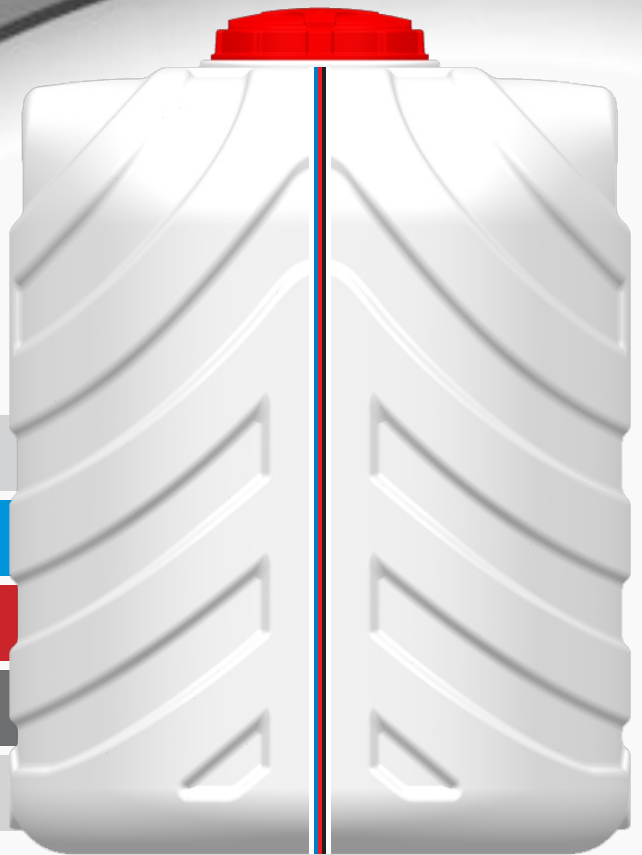

- Spark of Red
- Red define the 3rd layer
- As a primary colour red gives strong resistance
- Red also has strong appearance

4

- Jet Black
- Black colour defines the 4th layer
- We use special black colour which has 70% Carbon. That's why it kill any chance of crossing the sun light
- Black colour protect direct effect of sunlight and secure the tank from bacteria and algae

5

- Brilliant White
- White Defines 5th layer
- Cleanly look inside water tank.
- Pure Food grade material

Unbreakable

Durable

Leak & Rust Proof

100% Virgin Food Grade Material

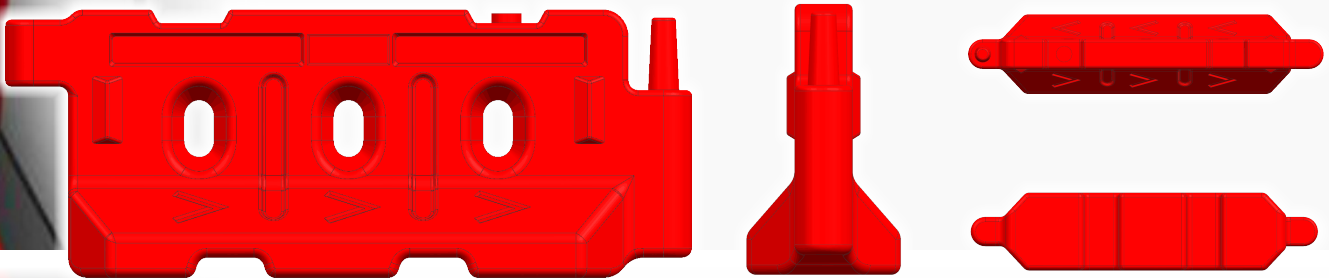

UV Protection

100% Hygienic & Latest Technology

Light Weight, Easy to Carry and Install

High Strength & Value For Money

SWISS Road Barriers
